RARE COIN LIST NUMBER FIVE

featuring

The Gold Coins

from

The Fabulous Curacao Purchase

July, 1973

PARAMOUNT BUILDING ENGLEWOOD, OHIO 45322

Dear Collector,

Our last Rare Coin List, featuring the fabulous K.T. Murray collection of gold coins, was the most successful in Paramount's history and hundreds of thousands of dollars worth of rare coins now have proud new owners. The interest shown by Paramount customers in virtually *every* U.S. series was remarkable, indicating a very broadly based market. Of course, gold coins, type coins, and silver dollars continued to be the leaders, but many other series fared nearly as well. As always, the greatest demand was for rarities and for coins in the choicest conditions possible.

Since Rare Coin List #4 was issued in March, we have made many outstanding new purchases including the incredible hoard of gold coins that John Queen and Ron Howard bought in Curacao. This was the largest single purchase in the company's history and we offered many of the coins in our widely acclaimed first issue of The Paramount Journal. In this Rare Coin List #5, we now offer many other coins from that purchase, rare dates that were invariably one of a kind.

Besides the many rare coins from the Curacao hoard, the outstanding selections of gold dollars and three dollar gold pieces in this list are particularly noteworthy. Such a wide range of dates in such top quality condition has hardly ever been offered before except at major auctions. Another important feature of Rare Coin List #5 is the listing on Page 50 of *prooflike* Morgan Dollars. Our complete listings of Morgan and Peace Dollars by mint state grade have set the standard for the hobby and we are sure that this unique list of prooflike dollars, offered here for the first time, will be equally well received.

In May we conducted the first Greater New York Convention auction. The sale realized over $330,000 and many records were set including all-time highs of $21,000 for the MS-70 1893-S and $12,000 for the MS-70 1892-S dollars from the famous Ronald Keller collection. Our next sale will be the Grand Central auction in November. We have already received many outstanding consignments, but we do have some space left for your *rare and choice pieces.* Quality coins are setting records everytime they are offered, and so if you have such items and would like to take advantage of today's high prices, why don't you contact John S. Queen at (513) 836-2654? Thank you.

Sincerely,
David W. Akers
Director of Sales

HALF CENTS Cont'd

1853 VF, $19.00; VF-EF 23.00
1854 VF-EF 23.00
1857 VF, $32.00; VF-EF, $39.00; AU. 65.00

LARGE CENTS

1793 Chain America, VF. A few minor bumps do not detract from the beauty of this coin. Excellent surfaces and very pleasing color. Chain Cents are far more difficult to obtain in choice condition than wreaths 1595.00

1793 Vine and Bars Edge. Abt. G, head well outlined, $145.00; G+, $265.00; F, $525.00; VF-EF. A beautiful coin with a rich brown color. None of the defects that are common to this date. Comparable coins have recently sold for as much as $1700 ..... 1400.00
1793 Lettered Edge. VF, planchet chip by date 595.00
1793 Liberty Cap. Rarest of the 3 types issued in 1793. Only 11,056 minted. G-VG, $495.00; VG, two light obverse scratches 695.00
1794 S-24, F 89.00
1794 S-24, R-2. Scarred head. F 89.00
1794 S-28, R-2. Ornate variety. F ... 95.00
1794 S-31, F 95.00

1796 Liberty Cap. S-87. VG 59.00

1799/98 S-188, R-5. Fine. Long considered to be one of America's rarest copper coins and, as such, in demand for well over 100 years. Deep dark color with no defects 850.00
1799 Perfect Date. VG 550.00
1802 F-VF, $39.00; VF, $49.00; AU, choice, minor planchet defect at date 299.00

1804 G, $175.00; EF, obverse diebreak. Like the 1793 and 1799 cents, the 1804 has long been considered a classic American copper coin. The 1804 cent is virtually unobtainable in grades higher than this one . 1395.00

1804 Restrike. Red and Brown Uncirculated. Even in 1860, the demand for 1804 cents was great and so a rusted 1803 cent obverse die was altered to 1804 and paired with a reverse die of 1820. Fortunately for collectors, the result was easily identifiable from the genuine. Rare and desirable in it's own right 210.00

1805 Blunt 1. S-267. EF, sharp, a most attractive planchet 195.00
1806 F 59.00
1808 VF, slightly porous 65.00
1809 AG, $30.00; VG 85.00
1810/09 EF. Turban head cents are extremely hard to find in nice condition, but this coin is an exception. Perfect for a high-grade type set 175.00
1811 F, $85.00; VF, $195.00; VF+ dark, slightly porous 150.00
1812 EF 150.00
1813 S-292, F 65.00
1813 S-293, F+ 72.50

1816 Brown Uncirculated. Sharply struck with satin surfaces. 185.00

1818 BU. This sharply struck large cent has full original mint color on the obverse. The reverse has beautiful lilac toning blending with the mint red. A superb coin, worthy of the finest type set 295.00
1819 Small date. EF 25.00
1823 VG 29.00
1825 VF-EF 22.50
1828 EF 32.50
1835 AU 39.00

1839 Silly Head. Choice brown uncirculated. 1839 is a particularly interesting year for large cents since five main varieties were made that year. The Silly Head variety or fourth head, is one of the rarest and is seldom available for sale in this choice condition 595.00
1839 Ty '38, F-VF 22.50
1839 Ty '40, VF 20.00
1840 EF+, dark 20.00
1843 Ty '42, EF 30.00
1843 Obv. '42, Rev. '44. Abt. F, $25.00; F, $36.00; VF 52.00

1850 Red and Brown Uncirculated. A remarkable coin with almost full prooflike surface on the obverse and a partially prooflike reverse. 149.00
1851 Newcomb 9. Brown Unc 80.00
1851 Newcomb 19, R-3. Late die stage with additional die crack from 1st star to chin. Unc. nearly full mint red color. 295.00
1853 Red and Brown Unc., choice ... 149.00
1854 Red and Brown Unc., choice ... 149.00

1856 Upright 5. BU 179.00
1856 Sl. 5. Red and Brown Unc., choice 159.00

LARGE CENTS Cont'd

1857 Large Date. By far the rarest of the late date large cents. Not only is the mintage much lower than for earlier dates, but most of the 333,456 struck were later melted when the switch was made to small copper nickel cents. VF, $35.00; EF, $47.50; AU, choice, $89.00; Brown Unc., $139.00; Brown Unc., choice, $175.00; Red and Brown Unc. 189.00

1857 Small Date. VG, $27.50; F+ . . . 37.50

FLYING EAGLE CENTS

1856 This classic coin is actually a pattern, but since nearly 1000 were struck and many circulated, it is now considered part of the regular series. We offer three excellent pieces. AU, choice, $1950.00; Unc., prooflike surface, $2350.00; Br. Proof 2395.00

1857 BU 235.00

1858/7 A recently discovered overdate that is very difficult to find with a sharply defined overdate. Most specimens are identifiable merely by the die chip over the date and by the broken wing tip. Uncirculated specimens have realized as high as $1700. EF-AU, $495.00; AU, very light scratches, $595.00; BU, overdate weak but discernible 995.00

1858 Small letters. BU, somewhat prooflike 325.00

INDIAN HEAD CENTS

1859 EF, $32.50; BU, choice. First and only year of type and remarkably difficult to obtain in choice condition. This coin has literally skyrocketed in value in the last year 350.00

1861 BU, $89.00; Proof, very minor spotting on obverse 350.00

1862 BU, $59.00; BU, choice, $75.00; Br. Proof 325.00

1863 BU, $59.00; BU, choice, somewhat prooflike 95.00

1864 Copper-Nickel. Brilliant Proof. A very rare coin with a mere 300 proofs struck, few of which can exist today 525.00

1864 Bronze, Brown Unc., $39.00; Red and Brown Unc., $42.50; Red and Brown Unc., choice, $47.00; BU 49.00

1864-L EF, $72.00; AU, choice, $119.00; AU, choice, lustre. Double cut date and lettering. Scarce. $135.00; Red and Brown Unc., $195.00; Red and Brown Unc., choice . . . 250.00

1865 Unc., interesting reverse die breaks, $32.50; Brown Unc., $35.00; Red and Brown Unc., $37.50; Red and Brown Unc., choice, $39.00; BU, $42.00; BU, choice, $47.50; Proof, obverse very lightly hairlined, $195.00; Br. Proof, lovely light brown toning 269.00

1866 AU, $65.00; Brown Unc., $95.00; Red and Brown Unc 119.00

1867 Red and Brown Unc., $115.00; Br. Proof 269.00

1867 over small 67. EF, $89.00; Red and Brown Unc 149.00

1868 F, $20.00; EF, $50.00; Brown Unc., $105.00; Red and Brown Unc., $115.00; Unc., choice, brown and beautiful, $125.00; Proof, nicely toned, $259.00; Br. Proof 269.00

1869 AU, choice, $159.00; Red and Brown Unc., choice, $275.00; Br. Proof, $359.00; Proof, choice 375.00

1870 EF, $67.50; AU, $100.00; Brn. Unc., $129.00; Red and Brown Unc., choice, $149.00; BU 159.00

1871 BU, somewhat prooflike, $189.00; Gem Unc., prooflike, $279.00; Proof, spots on rim 249.00

1872 One of the rarest dates in the series. Red and Brown Unc., weakly struck on rev., $129.00; Red and Brown Unc 219.00

1873 Proof, beautiful toning, $210.00; Br. Proof 235.00

1955 Double Die. EF, $209.00; EF+ glossy, $219.00; AU, $260.00; AU, choice, $295.00; Unc., glossy brn., $349.00; BU. With the recent discovery of the 1972 double die cent, the ever popular 1955 double die is again back in the limelight. Unlike the 1972, it was several years before the 1955 double die was discovered. As a result, it is a very difficult coin to obtain in brilliant uncirculated condition 395.00

TWO CENT PIECES

1864 Small Motto. VG, $35.00; Red and Brown Unc., $265.00; BU, Prooflike surfaces and edge. This is the ideal coin for the person attempting to assemble a complete set of proof two cent pieces, since the 1864 small motto is virtually impossible to obtain in full proof condition 550.00
1864 Doubled Date. Large Motto. BU 150.00

SHIELD NICKELS

1866 AU, sharp strike, $59.00; BU, usual weak strike, $99.00; BU, choice, $195.00; BU, choice, somewhat prooflike, $250.00; BU. Full Shield lines. Early Shield Nickels are difficult to find fully struck. Actually this is not surprising when you consider what a hard metal nickel is and the fact that the mint was just beginning to strike coins with it in 1866. Many early Shield nickels and three cent nickel pieces as well, are lightly struck or struck from broken and even crumbling dies. This coin is exceptional and only rarely does one see an 1866 so sharply struck 275.00

One of the most popular 20th century coins and one of only four overdate coins of the past 75 years, a phenomenon that was relatively common in the early days of the United States Mint. Discovered a year after it was issued, the 1942/1 dime is an exceptionally rare coin in full mint state, although many are advertised in that grade. This coin is an exceptional buy when you consider that a strictly uncirculated piece would cost

three to four times as much, if you were lucky enough to find one. . 295.00

The twenty cent piece was the shortest lived of all United States series, and even when it was created in 1875, there was really little need for the denomination. Since it was such an unpopular coin, it is surprising that it circulated as much as it did, a fact that is clear from the number of extremely circulated specimens that are available. Uncirculated ones are rare and have doubled or tripled in value in the past year 450.00

QUARTERS

1796 VG-F. The only year of type, and as such, one of the most popular of all United States type coins. With uncirculated specimens now bringing $10,000 and more, this is an inexpensive way to complete that gap in your type set 1750.00

1804 VG, $195.00; F-VF. An extremely pleasing example of this rare date. When the gem uncirculated specimen sold last fall at a Lester Merkin auction for $25,000, the 1804 quarter leaped to the forefront of American Numismatics as the highest priced minor coin issued for circulation. Although it is not a great rarity in circulated grades, its low mintage of 6,738 is only slightly more than that of the 1796, a coin that in comparable condition sells for 5 or 6 times as much 425.00

1805 VG, $67.50; Abt. F, $89.00; F, $119.00; AU. Like most quarters of this type and most half dimes, dimes and half dollars of the same era, this 1805 quarter is somewhat softly struck at the centers. However, it has nearly full mint lustre and is an exceptionally pleasing coin 750.00

QUARTERS Cont'd

1806 VG, $67.50; F, $110.00; VF, $235.00; BU, normal date. The draped bust quarter is many times more rare than the subsequent capped bust type. We have recently noted uncirculated specimens of the latter type selling for far in excess of $2000, and if they are indeed worth that, then this 1806 quarter should be worth $5000 or more. However, for the present time we offer a very nice specimen, far more sharply struck than usual with full mint lustre, at a most reasonable 2450.00

1795 VG, $159.00; VG-F, "A" over "E" in "States" on reverse, $210.00; F 249.00

1796 F. 16 stars. The king of United States type coins. This coin probably appears on more want lists than any other United States Coin, which is hardly surprising when you consider that less than 4,000 were minted in only two years of this type. Nice even overall wear and absolutely no defects 4250.00

1827 Square base "2". BU. Considering that the far more common Liberty Seated Half Dollars and Barber Half Dollars sell for $300 and more in comparable condition, uncirculated Bust Half Dollars must rate as one of the bargains in American Numismatics. This coin is sharply struck and beautifully toned. 235.00

REEDED EDGE HALF DOLLARS

1837 BU. Reeded edge with 50 cents on the reverse. The only official issue of this type since the 1836 is more legitimately a pattern than a regular issue. Much more rare than the previous type and as we indicated in our comments about the 1827, this type must be considered a genuine bargain when one considers how much Uncirculated Liberty Seated Halves and Barber Halves currently sell for. This is not to say that the latter are not worth their price, it is just that the early types are particularly underpriced 389.00

1850 BU. Full prooflike surfaces. A rare date with only 227,000 struck 395.00

1852 BU. Even more rare than the 1850. In fact the 77,130 mintage figure is the lowest mintage for a Philadelphia Seated Half Dollar prior to 1879. Very few strictly uncirculated specimens are known. This coin is very sharply struck and has full mint lustre 475.00

1852-O EF, $149.00; BU. Light cabinet friction. Another very rare Seated Half Dollar. In fact, Taxay notes that only one is known in strictly uncirculated condition. The guidebook lists the 1852-O at less than half the price of an 1852 in uncirculated condition, probably because it has a higher mintage figure. However, an uncirculated 1852-O is by far the rarer coin of the two 495.00

1897-O BU. One of the rarest dates of the series and seldom available in any grade 625.00

1897-S BU, choice. Next to the 1901-S, this is perhaps the rarest date Barber Half Dollar. The reverse is superb and the obverse is also excellent. Common date Barber halves in choice uncirculated condition now sell for $300 and more. By that standard, this 1897-S, which is many, many times more rare than a common date, should sell for more than $1000. However, this seldom offered rarity can be yours for just 750.00

1910 BU. One of the lowest mintage Barber half dollars with only 418,551 struck. Very difficult to locate in this choice condition. Much rarer than so called "common date" Barber half dollars, although the Redbook does not indicate this 450.00
1910-S VF 35.00

1913 Br. Proof. Scarce in all grades with only 188,627 coins minted. Third rarest proof of this series, ranking only behind the 1914 and 1915. A very attractive coin free of the hairlines common to many Barber proofs. 475.00

1921 AG, $17.00; G 27.00

1921-D AG, $42.50; F, $89.00; BU, gem. The finest specimen of this lowest mintage (208,000) Walking Liberty Half Dollar that we have ever owned. Magnificent, even deep toning on the reverse and attractive mottled toning on the obverse. The head of Liberty and the eagle are fully struck and sharp. If you like your coins "bright and shiny" or if you like to "dip" them, please do not order this beautiful half dollar. But if you would like the finest 1921-D you are ever likely to see, send in your order as soon as possible since this will certainly be one of the first coins to sell from this list 2500.00

1923-S This date is somewhat overshadowed by the many other rarities in the Walking Liberty Half Dollar series. However, it is a very rare coin in its own right and actually is much less available than some of the other higher priced dates in this series. This coin, like most early Walking Liberty Half Dollars, is somewhat softly struck but it is fully lustrous and strictly uncirculated. The reverse is very sharp and pleasing 595.00

The only proof 1850 dollar offered in recent years was in our 1973 NASC sale and it was not nearly as choice as this coin. With respect to both rarity and quality, this superb coin is fully the equal of the incredible 1855 proof dollar that brought $7500 at that same auction. 1870-CC BU. If ever a coin was underpriced for its rarity, this is it. Several Uncirculated Carson City Dollars in the Morgan series, such as the 1889-CC and 1893-CC, sell for more than this date, and yet we have handled dozens of both of those dates for every 1870-CC we have owned. The mintage is only 12,462 pieces and most of those known are fine or less. This coin is somewhat softly struck on the head, but is otherwise an excellent coin with full mint lustre and very few bagmarks or abrasions. Rare! 795.00

1878 8TF. Proof, gem. One of the rarest of all proof Morgan Dollars. There are not enough superlatives to describe the quality of this coin. Superb frosted head contrasted against absolutely flawless fields. Since the Morgan Dollar series is undoubtedly the most popular series of coins today, it is somewhat of an enigma that proof Morgans are generally underpriced, particularly when one considers what many uncirculated coins in the series are now selling for 750.00

1892-S EF-40, $69.00; EF-45, $89.00; AU-50, $795.00; AU-55. This date and the 1893-S are prime examples of why accurate grading is perhaps the most important aspect of numismatics. Uncirculated examples of the 1892-S have sold for as high as $12,000 in our 1973 Greater New York Sale, and yet the same date with the slightest hint of wear is worth much, much less. This beautiful coin has almost full mint lustre and just the barest trace of rubbing, and many dealers would sell it as uncirculated at a "bargain" price of $5000 or $6000. It is ideal for the person who wants a nice 1892-S but cannot afford to spend thousands for a strictly uncirculated piece..... 1450.00

1893-S F, $219.00; EF-40; $525.00; EF-45, $595.00; AU-55. The same comments that we made for the 1892-S apply doubly for this date since strictly uncirculated specimens have sold for as high as $21,000 (the Keller specimen). Accurate grading of these two dates obviously is extremely important, and many dealers would be tempted to call this 1893-S uncirculated. It is not, however, but would fit nicely into an uncirculated set at about 10% of the uncirculated price . 1795.00

$1 GOLD Cont'd.

1855-C EF-AU, with strong claims to being full AU. One of the most underrated of all gold coins, and probably the most difficult gold dollar to obtain in full mint state. A very similar grade coin (but with a rougher planchet) sold at the recent Metropolitan Auction for $1900! 1450.00

1855-O AU, $1200.00; AU, choice. Another underrated coin that is many times more rare than the 1854 or 1855 and yet sells for very nearly the same. Superior to the EF Gilhousen coin which realized $1210 in February. 1500.00

1864 BU, choice. Full mint lustre and a sharp strike. Interesting clash marks on both obverse and reverse. Breen calls the coin "very rare", and most specimens offered are extremely fine or less. Much nicer than the coin that realized $750 in the 1973 Metropolitan sale 800.00

1865 BU. The second rarest gold dollar of the 1860s (the 1863 is the rarest) Like the 1864, seldom available in uncirculated condition. This coin is superior to the one in the Metropolitan Auction that brought $900 . . . . 850.00

1869 BU 450.00

1870-S AU, choice, prooflike. The last branch mint gold dollar and one of the most popular dates in the entire series. Although its mintage is comparable to some of the dates around it, it is a much rarer coin in all grades. Breen estimates that less than 30 pieces are known and many we have seen are damaged. 1650.00

QUARTER EAGLES

1796 No stars. AU, choice, prooflike. A high grade example of a first and only year of type. Only 963 minted and rarely available. In great demand by type collectors. 10,000.00

1796 With stars. EF. Considerably rarer (R-7) than the no stars variety. In fact this is one of only several coins in the entire $2½ series that was missing from the Gilhousen collection. One of the nicest offered in years, equal to or slightly better than the coin in the June 1971 Merkin Sale 8,750.00

1807 AU. The quarter eagles of this type are many times more rare than half eagles of the same era. The 1807 has the highest mintage for this type but with only 6812 struck, its mintage is still a mere 20% or so of the average for the similar half eagles. The highest grade example of this popular type we've had in stock in quite sometime 2,250.00

QUARTER EAGLES Cont'd.

1808 AU, choice. Only one year of this type and therefore, one of the most sought after of all U.S. gold coins. Usually available in VF or less. This is an extra-ordinary example of this rare date. A coin only a bit better sold last summer to a dealer for $14,000. A remarkable opportunity to obtain a coin that is worthy of the finest collection..... 12,500.00

1824/1 AU, prooflike. The second lowest mintage of this type (2600) and extremely rare in all grades. At least R-5, meaning less than 75 specimens known. This is surely one of the finest available, since only two or three fully mint state examples and possibly two proofs are known to exist.... 2,900.00

1830 BU. Like all pre-1834 quarter eagles, this coin has an ultra-low mintage (4540). Sharply struck and lustrous. We have noticed inferior specimens selling far in excess of $3000..... 2,750.00

1833 AU. Another excellent example of this scarce type with just the barest trace of rubbing to keep it from the uncirculated class.

For some reason this date appears much less often in high grades than the four dates preceeding it, even though its mintage is comparable (4160)..... 2,100.00

1834 No Motto. AU, $275.00; AU, somewhat prooflike, $295.00; Unc. A very sharp strike with traces of a prooflike surface. An excellent type coin 475.00

1835 AU, somewhat prooflike 275.00

1836 VF, $110.00; EF 169.00

1838 VF-EF..... 129.00

1838-C AU. The first branch mint quarter eagle. Like the half eagle of the same date, a very underrated coin, and by far the rarest of this type with a low mintage of only 7880. A slightly different head from preceding years of this type. (This head is seen only on the 1838-C and the 1839/8-D.) The C Mint mark on the obverse is distinctly recut as it is on all known specimens.....950.00

1839-O VF-EF.....215.00

1839-C Recut "39". AU 695.00

1842 AU. Possibly the finest known specimen. Between 1863 and 1915 this date was considered semi-unique (2 known) with several early auction records over $100. (The Taylor-Windle specimen in 1908 brought $155!) A few have shown up since but all in low grades, ie VF or less. For example, the Dunham coin was only F-VF

with obverse scratches. Unappreciated for the rarity that it is 750.00

1848 VF, $525.00; EF. While not as rare as the 1842, it is still very difficult to locate. Most offered for sale over the years have been VF or less, the Unc. Miles coin being an exception. This piece is much nicer than the Gilhousen coin that brought $500.. ..... 800.00

1854-O EF 110.00

1855 BU, gem. Don't let the low Red Book value fool you. Many, many, times more rare in this condition than any late date Liberty quarter eagle. (We have seen more unc. specimens of 1882, 1883, 1884, 1886 or 1892 for example than of 1855.) Beautiful satin surfaces and needle sharp strike. The finest we have ever seen of this date .. 350.00

1856-S BU, choice. One must go back many years to find another Unc. offered, that being in the World's Greatest Collection. A review of the great collections sold in the last 25 years shows VF to be average with only an occasional EF seen. Far superior to the AU Gilhousen coin, which brought $625 after very active bidding. We have never seen or heard of the equal of this outstanding piece. Sharp strike, full lustre and flawless surfaces!. 950.00

1882 AU, choice, prooflike, $395.00; BU, gem. As outstanding as the 1880. Rarely offered this nice. Like all the quarter eagles in the 1880s, very underrated 795.00

1884 AU, choice, $395.00; BU, gem, prooflike. Another very rare date that is usually offered only in proof or impaired proof condition. Strictly uncirculated pieces like this one are extremely difficult to find 850.00

QUARTER EAGLES Cont'd.

1895 Br. Proof, gem. Only 119 proofs struck. A superb, flawless coin. Proof gold, long dormant, is finally having its day and prices are soaring. This gem is as nice as they come and is free of the hairlines that seem to plague most proof gold 1250.00

1911-D EF, $525.00; AU. The rarest and most popular date in the Indian Head $2½ series with its 55,680 mintage less than one-fourth that of the next scarcest date (1914). 575.00

$3 GOLD

1854 VF-EF, $349.00; EF, $450.00; EF-AU, $525.00; AU, $625.00; BU, choice. A superb full lustre coin that could scarcely be improved upon. The 1854 is important to type collectors since the word "dollars" is much smaller than on subsequent years, and therefore the coin is a distinct type. The finest 1854 $3 we have handled in over a year 1250.00

1854-D EF. The only Dahlonega Mint $3 gold piece. Better than average strike and distinctly better than average planchet (1854-Ds are notoriously poorly struck on atrocious planchets!) A seldom offered coin and certainly one of the most popular dates in the series. Breen indicates that the coin is probably rarity 6, meaning less than 30 pieces known 2950.00

1854-O EF 550.00
1855 EF 450.00

1855-S EF-AU. A very rare coin, particularly in higher grades. Although its mintage is low at 6600, it is a much rarer coin than 1862, 1866, 1868, 1888 or 1889, all of which have somewhat lower mintages. World's Greatest Collection, Baldenhofer, and Pierce all had VF coins, which is about average for this date. We have never seen a specimen finer than this one 950.00
1856 EF, lustrous 475.00
1856-S Medium S, VF 395.00

1860-S VF-EF 425.00

1861 EF 475.00
1862 EF-AU 550.00

1863 EF, $575.00; AU, $795.00; BU, gem. The fabulous Gilhousen coin. Only 5 or 6 coins of this date have any claim to mint state and this is certainly the finest or equal to the finest of them. (It is perhaps matched by the coin that sold in the November 1965 Merkin Sale.) The 1863 is the second rarest date in Unc. of the 1860s, surpassed only by the 1865. Incredible strike with perfect, unmarked surfaces, wire rims, and deep golden toning. Add to this fact the rarity of the date and you can see why we are so excited about this coin. Double our price would still be a bargain, because the real bargain is just the opportunity to buy such an outstanding coin 3000.00
1864 EF, sharp, $650.00; AU, choice . 975.00

1865 EF. Original. One of the rarest and most undervalued coins of the 1860s. Very few uncs. have ever been offered for sale (the Holmes specimen was possibly the finest) and so this is one of the best available. Level date and wire edge at top of reverse which are characteristic of originals . . . 875.00

1866 VF-EF, $560.00; EF, $595.00; BU, full prooflike surfaces. Another outstanding three and probably the finest 1866 we have ever handled. A very deceptive first strike that could easily pass for a proof. Almost unheard of in this extraordinary condition 1450.00
1867 EF 625.00
1868 AU 850.00
1869 EF, $625.00; AU 895.00
1870 VF-EF, $450.00; EF, $540.00; EF-AU 625.00

1871 AU. Even rarer than its low mintage of 1330 would imply. Very nearly as rare as the 1865 and the 1877, both of which sell for substantially more. This is one of the finest we have seen, surpassed only by the gem in last year's Marks Sale, and the T.J. Clarke coin . . 950.00
1872 EF, $575.00; EF-AU, prooflike . 650.00
1874 EF, $450.00; EF-AU, $525.00; AU, $625.00; AU, choice 675.00

1877 AU, choice, prooflike. A beautiful, sharply struck coin that has just the faintest trace of rubbing on the high points. One of the rarest dates of this series and less often seen than the lower mintage 1881. This 1877 is one of the nicest offered since the choice Miles specimen realized $1400 over four and a half years ago 1950.00
1878 VF-EF, $349.00; EF, $450.00; AU, $625.00; BU, $950.00; BU, choice. A beautiful coin for your gold type set 1200.00

$3 GOLD Cont'd.

1881 EF-AU. The lowest mintage three struck for general circulation (554 minted). As Breen states, "generally found in F or VF when available at all". Probably R-6 (less than 30 pieces known). 1350.00

1882 Recut "2". AU, choice, $775.00; BU, choice, prooflike. The so-called "recut 2" variety with traces of the original two clearly visible. This coin is extremely difficult to tell from a proof and in fact the previous owner purchased it as one. Although not a proof, it is still an extraordinary coin that would be ideal for a type or date set 1450.00

1883 BU, choice. Like the 1882, a very deceptive first strike that could easily be mistaken for a proof. Definitely superior to the Gilhousen coin (one of the nicest offered in some time) that realized $1525 in February. Most 1883s offered are very worn and since only 989 were minted and many undoubtedly lost and melted, few can exist as nice as this one 1500.00

1885 AU, $1200.00; AU, choice. An unbelievably low 801 pieces struck for circulation. Very rare in all grades and virtually unobtainable strictly uncirculated. This coin is somewhat nicer than the one we offered in Rare Coin List #4 which quickly sold at $1350 . . . . . 1350.00

1886 EF, $950.00; EF-AU, prooflike, $1095.00; Br. Proof. A fantastically beautiful coin. The 1886 is rare in any condition (only 1142 minted) and in the ultimate grade, proof, is a major rarity seldom offered 2950.00

1888 AU, choice, $795.00; BU, choice. All strictly uncirculated three dollar gold pieces have been setting records lately as collectors are beginning to realize their true rarity. This glittering coin sells for only a little more than a common date and yet is many times more rare. As nice as the coin we quickly sold from Rare Coin List #4. . . 1295.00

HALF EAGLES

1798 Large Eagle, Large 8, 13 stars reverse. VF-EF, $1350.00; BU, partially prooflike reverse. A few minor adjustment marks. Much more rare than later dates of the same type. Rarely offered in grades above VF as evidenced by the fact that the Miles and Wolfson coins graded VF 1950.00

1800 AU. A beautiful type coin with a partially prooflike surface. Sharply struck with just the slightest hint of wear 1200.00

1803/2 BU. Full mint lustre and deep yellow gold color. An outstanding type coin. We've seen specimens no finer with price tags approaching $2000 . . . . . 1450.00

1807 Capped Bust. 5 D Reverse. AU, choice. The slightest trace of wear on the cheek, curls and eagle keep this out of the uncirculated class. Very popular as a first year of type. 975.00

1808 VF-EF, $595.00; EF, $695.00; EF-AU, $775.00; AU 895.00

1809/8 EF 695.00

1810 Large Date. Tall 5. VF, $550.00; BU, choice. A very attractive coin with a razor sharp strike and beautiful color and toning. Slightly better than the coin in our Greater New York Sale that brought $1550. On the bourse floor at that show we saw lesser coins of the same type priced as high as $2000 . . 1350.00

1811 Small 5, EF-AU 795.00

1811 Large 5, AU 895.00

1812 VF-EF, $595.00; AU, $895.00; AU, choice 975.00

1813 VF, $600.00; AU. Sharply struck with just a hint of wear. Another popular first year of type and one of the few dates of this type that is available to collectors. 1195.00

1818 AU, choice. This popular type (1813-1829) boasts many of the most famous U.S. gold rarities, including the 1815, 1819 and 1822 half eagles. This coin has full frosty mint lustre and just the slightest trace of wear on the cheek and hair. An excellent coin for the type collector 1195.00

HALF EAGLES Cont'd.

1834 With Motto. Plain 4. BU, choice. Undoubtedly one of the prize offerings in this entire list. Next to the 1832 Half Eagle, this is the rarest gold coin of the 1830s. Taxay notes that the 1834 Motto $5 is "excessively rare in Unc." and we can find no record of a comparable coin offered in many years. The Miles coin was AU and it was the same coin as in the Wolfson collection. DiBello was lacking this date and the few others offered in the last decade were EF or less. 6750.00

1834 No Motto. Plain 4. AU, $395.00; BU, prooflike, $800.00; BU, choice. Full prooflike surfaces (which by the way is fairly common to this date). An outstanding type coin, comparable to the Delp coin and the one in our 1973 NASC Sale which were two of the finest offered for sale in some time . . 1100.00

1835 VF-EF, $169.00; EF 195.00

1836 VF-EF, $159.00; EF, $195.00; AU, $325.00; BU. 675.00

1838 VF-EF 159.00

1838-C VF-EF. Like the quarter eagle of the same date, this is by far the rarest date of its type. Although it catalogs the same as the 1838-D, the 1838-C is much rarer, especially in the higher grades. This coin, although worn, is far above average and has an exceptionally nice planchet for the date. Rarely seen better than this 750.00

1839 BU. A very rare coin in high grade and seldom offered this nice. The Walton, Pierce, Wolfson and DiBello collections all had EFs of this date. This is one of the nicest examples of an 1839 that we have ever handled, surpassed only by the incredible Mathey specimen that realized $2250 in our 1973 NASC sale . . 595.00

1840-O EF 359.00

1840-D EF 375.00

1842-D Small date, Small letters. EF, $395.00; Unc. A very difficult coin to find in the upper grades. For example, the DiBello coin was a mere Fine. This is the nicest we have seen of this date, being slightly better than the Unc. coin in the Gilhousen sale that brought $540. . . . . 575.00

1843 AU, $145.00; BU, choice. Although relatively common in circulated grades, this coin is extremely rare uncirculated, and we have never handled an 1843 better than this one. Sharp strike, full mint lustre, and not the slightest hint of wear. High grade Philadelphia mint gold coins of the 1840s are very much undervalued and in many instances are fully as rare as the branch mint coins of the same era 395.00

1845 EF, $125.00; AU, somewhat prooflike 165.00

1845-O EF, $329.00; AU, choice. Superb strike and excellent color. Like all New Orleans mint half eagles, extremely rare in the upper grades. To give you an idea of just how rare, the Gilhousen coin in choice unc. brought $2000! This coin is not in that class of course, but it still is one of the nicest we have ever seen. The Miles coin for example, was a polished EF, while Wolfson had only a VF 450.00

1853-D BU, choice. As fine an example of a Dahlonega mint five dollar gold piece as we have ever seen. The reverse is almost perfect and so is the obverse. Most of the stars are fully struck up, which is very unusual for a D mint gold coin 800.00

1854-O EF, $345.00; AU, choice 495.00

1855 AU 165.00

1855-S EF 250.00

1855-O AU, choice, prooflike. Only 11,000 coins struck and in this condition one of the rarest New Orleans mint half eagles. Missing from most major sales to date and in this grade, at least as rare as the much more expensive 1892-O. To our knowledge, this coin is surpassed in condition only by the famous Wolfson-Miles coin. The tiny planchet defect at the top on the obverse does not detract from the beauty or value of this rare coin 795.00

1861-D Unc. Satin-like surfaces and deep gold color. By far the rarest Dahlonega mint five and seldom seen above VF, if at all. Certainly one of the finest known. Only 1597 struck in all before the Confederacy took over the Dahlonega mint on April 8, 1861 . . . . . 5500.00
1862 EF-AU. Rare Civil War coin with a low mintage of 4465. Almost unheard of above EF 525.00
1864 EF 550.00

1866 EF. While not the equal of the unbelievable coin we offered in Rare Coin List #4, this is still one of the nicest available. We have indeed been fortunate to handle two such outstanding examples of this rarity in such a short period of time. It may be a long while before we have another one as nice 850.00
1868-S VF 130.00

1869 EF. With full prooflike surfaces. One of only 1785 coins struck. Usually available only at auction when great collections are sold. Much nicer than the VF Gilhousen coin that realized almost $500. . 795.00
1870-S F-VF, $119.00; VF 175.00
1871-S EF-AU 260.00
1871-CC VF 350.00
1872-S F-VF, $110.00; EF 225.00

1872-CC VF, $375.00; EF. Without a doubt, Carson City fives and tens of the 1870s are among the hardest gold coins to find in nice condition. Invariably they come VF and less. This 1872-CC is very close in quality to the excellent Gilhousen coin that brought $975 . . . . . 625.00
1873 Open 3. VF-EF, $85.00; EF . . . 110.00
1873-S EF, $175.00; EF-AU 325.00
1875-S VF, $150.00; EF 495.00

1875-CC EF. As we noted in our comments on the 1872-CC, this date is almost impossible to find in high grade. For example, the coin in our 1969 ANA Sale graded only F, and this is, in fact, the average grade for this rare date. The comparable Gilhousen coin brought $600. . . . . 625.00

1877 EF. With a low mintage of only 1152 coins, this is the second rarest Philadelphia mint Liberty Head half eagle. Probably less than 30 to 40 pieces known of this rare date, and most of those grade VF or less, although 2 uncirculated specimens are known to exist 1150.00
1877-S EF, $150.00; EF-AU, $179.00; AU. 225.00

1877-CC EF, prooflike. Many of the great collections offered for sale over the years have failed to have this rare date. It was the only Carson City Half Eagle that was missing from our 1969 ANA Sale. Miles and DiBello had VFs, Pierce had none at all. The only comparable coin we have seen in years was the Gilhousen coin which realized $600 and it was not as nice as this coin. 675.00

1892-CC EF, $175.00; EF-AU, $185.00; AU, $215.00; AU, choice, $229.00; BU, gem. We have never seen a finer CC five than this coin. Absolutely superb satin surfaces and no marks of any kind. A beautiful coin, and surprisingly rare in strictly unc. condition . . 495.00

INDIAN HALF EAGLES

1908-S EF 300.00

1909-O EF 375.00

1911-D EF, $225.00; BU. The rarest Indian Head Half Eagle in this grade. Much rarer than the Quarter eagle of the same date and many times more rare in unc. than the high priced 1929. There are only 4 or 5 auction records for strictly Unc. 1911-Ds and several of these are reappearances of the same coin. This particular piece is from the Curacao Hoard and has full mint lustre and a sharper than average strike. A minute planchet flake on the bust of the Indian is noticeable only on close inspection. Rare! 550.00

1916-S BU, choice. The catalog value of $90.00 for unc. is ridiculously low since only a few uncirculated pieces exist. This is the first we've handled in some time and, in fact, we cannot recall ever seeing a better specimen. The Forrest specimen sold last September to a dealer for $325, and it was not in the class of this coin. Excellent strike, clear mintmark, and nearly perfect fields . 550.00

1929 BU, choice. Very sharply struck with full mint lustre and traces of a proof-like surface on the reverse. The 1929 is the last and most valuable date in this popular series. Virtually all of the 662,000 minted were undoubtedly melted since at most 100-150 pieces are known, most of them uncirculated. This date has been a known rarity for nearly 30 years and it regularly brought several hundred dollars at auction as far back as 1944 when other dates in the series were worth $20 or less! One of the most popular and in demand gold coins of the twentieth century 3250.00

EAGLES

1796 Small Eagle. Unc., gem, prooflike. Perfectly struck and centered with virtually all the characteristics of a proof. As a date, this coin is at least R-5 and in this condition, it is unsurpassed. Undoubtedly a presentation piece, perhaps struck, as Breen surmises, on the occasion of Tennessee's admission to the Union. Whatever the reason, this is one of the most exciting gold coins it has ever been our pleasure to offer for sale. Far more rare than the 1795, of which perhaps as many as 30 Unc. pieces exist, and we recently noted a borderline Unc. 1795 priced at $25,000! The ultimate coin for the type collector or the intrepid collector of eagles by date 25,000.00

1797 Large Eagle. Unc., choice, prooflike. Nearly a match for the remarkable 1796 just described. The reverse is simply outstanding with a full prooflike surface. The obverse is very nearly as good and even disregarding the rarity of the date, this is as fine an example of this type as we have ever offered for sale. At the recent Greater New York Show we noted an inferior specimen offered for sale at $10,000. . . . . .6,500.00

1798/7 9 stars left, 4 right. AU. The second rarest early eagle and one of the most prized dates in the entire $10 series. Very few have been offered for sale in the past twenty years and probably fewer than 20 of the original 900 minted still exist. "One of the finest known" is an overused phrase today, but it certainly applies to this beautiful coin. It is sharply struck and evenly centered and it has unusually nice surfaces, particularly on the reverse. Far superior to the few others offered in recent years 7250.00

1799 AU, choice. This coin is so close that it is very tempting to call it unc., but, it does have just the barest trace of wear. Nevertheless it is an excellent coin for a high quality gold type set 2,100.00

1839 Large letters. EF. A very popular type coin, since this type was issued only in 1838 and 1839. Nice even wear, less heavily bagmarked than ordinarily seen 850.00

1841 VF-EF, $175.00; AU, somewhat prooflike. 325.00

1842-O EF-AU, somewhat prooflike . . . 275.00

1844 EF. The 1844 is one of the rarest Liberty Head Eagles and is usually available only in F or VF. So when we offered the EF 1844 eagle in Rare Coin List #4, we could scarcely have anticipated being able to offer another one so quickly. This one is even a bit nicer than the last, and it has a partially prooflike surface. 750.00

1849-O EF-AU 350.00

1850-O EF, $180.00; EF-AU 210.00

1851-O VF-EF, $95.00; EF 105.00

1853 EF 95.00

1855-O EF. Struck from dies retaining some polish. Considerable mint lustre and traces of a prooflike surface. Much rarer than mintage of 18,000 would indicate. Seldom offered in this grade. 350.00

1857-S EF-AU. The Red Book does not give any indication as to the real rarity of this date. Most major sales have either been missing this date entirely or have had coins that graded VF or so. The Wolfson coin was VF and the Miles specimen was About EF. DiBello and Gilhousen both had VFs. The Shuford coin was the ex-Walton specimen and it was also just VF. These records lead us to believe that this is possibly the finest known specimen. Certainly we have not seen or handled its equal 450.00

1862 VF 195.00

1865 AU. Very similar in quality to the coin we sold in Rare Coin List #4. If anything this one is a bit nicer because of the sharper strike. Extremely rare in all grades 1900.00

1867 EF. A very rare post-civil war eagle with a low mintage of 3140 coins, few of which still exist today. Missing in our extensive 1969 ANA offering. This coin is at least the equal of the Miles specimen (one of the better ones offered in recent years) and is much nicer than the Gilhousen coin that brought $480 . . . . . 625.00

1868 Fine 110.00

1870-S EF 395.00

1871-CC VF 745.00

1872-S VF-EF, $225.00; EF 260.00

1874-CC EF. Like the Carson City Half Eagles of the same era, the CC eagles of the 1870s are extremely difficult to find in any grade, and are almost unobtainable even as high as EF. This is a very pleasing specimen of this rare date. A very undervalued coin 495.00

1880-O AU, prooflike 325.00

1882-O EF 265.00

1883-S BU. A very scarce coin seldom offered for sale. This coin has very few bagmarks and full mint lustre. It is almost a twin of the coin that realized $360 in the 1973 Metropolitan Auction. The 1883-S has received very little publicity as a rarity, but consider this: the Miles and Wolfson

EAGLES Cont'd.

coins were only EF and the Shuford and Melish specimens were just VF. Overshadowed for years by the more valuable 1883-O but a rare coin in its own right 325.00

1891-CC EF, $149.00; BU, $295.00; BU, choice 350.00

1908-S EF 235.00
1909-S AU 175.00
1910-S AU 129.00

1911-D EF. The lowest mintage Indian head eagle. Compared to this coin, the higher priced quarter eagle is very common .. 250.00

DOUBLE EAGLES

1850 VF-EF, $350.00; EF, $475.00; EF-AU, $575.00; AU, $850.00; BU, gem. Extremely rare in full mint state and known to be so for many years. The only comparable coin we know of was sold in the New Netherlands 63rd Sale in 1971. In an 1890 Chapman Brothers Sale, the Unc. 1850 was so highly thought of that it was illustrated. In that auction it realized the same as an 1864 Proof! This gem is by far the finest we have ever handled, and over the years we have sold many, many 1850s 3,000.00
1851 EF-AU 375.00
1852 AU 425.00
1853 EF-AU, $350.00; AU 395.00
1853-O AU 395.00

1855-S EF, $295.00; AU, $425.00; AU, choice. Full mint lustre and just the barest trace of rubbing. Early San Francisco Mint Double Eagles in this condition are very rare 495.00
1856-S EF 275.00
1857 AU 375.00

1857-S AU, $395.00; AU, choice. A perfect match for the 1855-S, and the same comments apply .. 469.00
1859-S EF-AU 350.00

1861 AU, $295.00; AU, choice, $350.00; BU. A nice uncirculated example of the No Motto type double eagle. This type has been rapidly increasing in price and we recently sold an 1861 only slightly better than this one for $950. . . 450.00
1863 EF 550.00
1865 EF-AU 340.00

1867 BU, choice. Sharper than average strike and far fewer than usual bagmarks. (For some reason this date seems to come very heavily bagmarked as a rule). Deep reddish gold color. A desirable and choice example of the increasingly popular second type (1866-1876) double eagle. 750.00

1867-S AU. 325.00

1869 AU, prooflike 350.00

1870-S EF, $275.00; AU. 325.00

1871 BU. Another high grade example of this increasingly popular type. More heavily bagmarked than the outstanding 1867 offered, but nevertheless, a very presentable coin 600.00

1872 EF 295.00

1874-CC AU, choice, $495.00; BU. An outstanding coin with almost a full prooflike reverse. Far fewer than normal bagmarks. This coin represents an outstanding opportunity to buy a choice type II double eagle and a popular Carson City double eagle, all at the same time 750.00

1875-CC BU 750.00

1876 BU, choice 475.00

1877-CC VF-EF, $325.00; EF, $375.00; EF-AU 425.00

1879-CC EF. The third rarest Carson City Double Eagle and seldom offered for sale in any condition. Prooflike surface and a minimal number of bagmarks. Equal to the Miles and Wolfson coins, and only slightly inferior to the outstanding Gilhousen coin that brought $1700. Missing from many major collections over the years, including the fabulous DiBello collection 795.00

1882-CC AU 425.00

1883-CC VF-EF, $325.00; AU, choice 495.00

1884-CC AU, choice 495.00

1887-S BU 325.00

1888 EF 265.00

1890-CC AU, prooflike, $475.00; AU, choice 495.00

DOUBLE EAGLES Cont'd.

1892-CC AU, choice, $529.00; AU, choice, prooflike, $589.00; BU, prooflike, $1050.00; BU, choice. An outstanding example of this rare date. Full prooflike surfaces and a minimal amount of bagmarks. We have not handled a finer example of this date for several years. Low mintage of only 27,265 coins. This has been a grossly undervalued coin for years and is only now starting to realize its full potential 1200.00

1893-CC VF-EF, $525.00; EF-AU, $750.00; AU, choice, $895.00; BU, $1195.00; BU. Full prooflike surfaces. The last year for Carson City coinage and one of the lowest mintage double eagles from that mint, with just 18,402 coins struck. Approximately the same rarity as the 1877-CC, a choice specimen of which just brought $1500. Lesser specimens of the 1893-CC have recent auction records of around $1000 .....1350.00

1898 EF..... 225.00
1902 BU..... 429.00
1905 BU.....425.00

1906 BU, $425.00; BU, choice. Beautiful color and satin surfaces. Virtually devoid of any bagmarks. Very popular because of its low mintage of 69,690 .....475.00

SAINT-GAUDENS

1909/8 Fully lustrous and relatively free of bagmarks. AU, choice ..295.00
1909 EF, $215.00; AU.....275.00

1912 AU, choice, lustrous, $295.00; BU. One of the more popular dates in the St. Gaudens series, due to its relatively low mintage by St. Gaudens standards. A very attractive coin that is fully struck up on the obverse and on the eagle on the reverse 325.00
1913 BU.....275.00
1916-S BU, choice 310.00
1923-D BU, choice 310.00

1924-D BU. A very rare coin that has tripled in value since early 1972. We have handled only two or three examples of this date in the last year and this is the finest. Just a few minor bagmarks take it out of the choice category. Seldom offered for sale except at auction 850.00

1929 BU, choice. Very close to gem quality. Full original mint lustre and very sharp strike. Except for one tiny bagmark on each side, the coin is virtually perfect! Most of the relatively high mintage was undoubtedly melted and lost to collectors forever and so the appearance on the market of a 1929 double eagle is a rare and exciting occasion. Few of those remaining are the equal of this superb coin 5900.00

PIONEER GOLD

Clark, Gruber & Co., 1860 $5, AU. Pioneer gold has been experiencing an increased popularity in recent months. Actually all pioneer gold coins are much rarer than most regular issues and are very difficult to obtain in nice condition. This is a particularly pleasing piece, sharply struck with excellent surfaces and very few bagmarks 950.00

Clark, Gruber & Co., 1860 $10, AU, choice. One of the rarest and most popular Pioneer gold coins. Pike's Peak is pictured on the obverse. The only collectible coin with this design as the similar $20 coin is excessively rare. Only one or two examples of this rare coin come on the market every year and usually they are in far lower condition than this beautiful piece 4000.00

Kellogg & Co., 1854 $20, EF-AU, nice 1500.00

Paramount recently initiated a *Personal Service Department* which is designed to aid all collectors and investors in assembling their collections or investment portfolios.

One of the basic objectives of this department is assisting collectors in filling want lists and providing personalized information relative to assembling a particular collection. By using our Personal Service Department you have the distinct advantage of receiving prompt confirmation on orders, thus avoiding possible sold-out letters, etc.

If you would like to take advantage of this new service, please feel free to call Mark S. Auerbach, Personal Service Department, collect at 513–836-2654 between 9 and 5, Monday through Friday. He will gladly assist you in assembling just the right collection for your needs.

A Comprehensive Listing of Morgan and Peace Dollars

With the exception of proofs, no special care was taken with United States silver dollars after they were minted. Invariably they were placed loose in 1000 dollar bags before being shipped or stored. As a result, virtually every silver dollar has some surface and/or rim abrasions and nicks. These abrasions and nicks are commonly referred to as 'bagmarks'. The number and severity of these 'bagmarks' is important to the silver dollar collector and can greatly affect the desirability and price of a given coin. You will notice in our explanation of Mint States 60, 65, and 70, that particular attention is given to the bagmarks, since they, more than any other factor, determine a given coin's mint state.

It is also a fact that some coins are more sharply struck than others. The sharpness of strike of a given coin shows up most noticeably in the hair over the ear and in the feathers on the eagle of both Morgan and Peace Dollars. All other factors being equal, a sharply struck coin will invariably command a premium over a weakly struck one of the same date. (This premium can be very substantial if the coin in question usually comes weakly struck as in the case of some New Orleans and San Francisco mint coins). Sharpness of strike is another important factor in Paramount's silver dollar grading system.

Here then is a capsule explanation of our mint state grading system as applied to United States Silver Dollars. If you have questions about this grading system or anything concerned with silver dollars, please write or call Mark A. Thornton at (513) 836-2654.

A mint state coin is one that has never been in circulation and has absolutely no signs of wear. The following three mint state descriptions all apply to strictly uncirculated coins. The difference between mint states is determined by the bagmarks and the sharpness of strike.

Mint State 60—A Paramount Mint State 60 (MS-60) coin is what most silver dollar dealers call 'choice BU'. It has an average number of surface and rim abrasions or 'bagmarks'. Depending on the particular date, an MS-60 coin may or may not be sharply struck. The coin is still an attractive, undamaged coin showing no signs of circulation.

Mint State 65—A Paramount MS-65 coin is of the quality that most dealers call 'BU gem'. It is a fully lustrous uncirculated coin with very few bagmarks. A noticeable superior coin to an MS-60, with considerably fewer and less severe bagmarks. In most cases, a more sharply struck coin than an MS-60 coin of the same date.

Mint State 70—A Paramount MS-70 coin is for the collector who wants only the very best available. It is a sharply struck coin (for the date) with full original mint lustre. As close to perfection as an uncirculated silver dollar can be, with virtually no bagmarks of any kind.

PROOF LIKE MORGAN SILVER DOLLARS

Below are listed Morgan silver dollars which possess mirror-like surfaces indicating they were among the first coins struck by a particular set of dies. The collecting of "proof like" dollars is becoming more popular everyday. Some dollars are very rarely seen in "proof like" condition.

Choice United States Coin Sets

1884 PROOF SET

Seven Coins: 1¢, 3¢, 5¢, 10¢, 25¢, 50¢, $1 — Total mintage of this set is a low 875, and since so many impaired proof coins exist, few sets the equal of this could ever be assembled. Each coin in the set is outstanding and free of hairlines. The Morgan dollar is superb! The seated half dollar is beautifully toned and the quarter has light peripheral toning. The 3¢ piece is much more lustrous than most. **$1595.00**

1892 PROOF SET

Six Coins: 1¢, 5¢, 10¢, 25¢, 50¢, $1 — Only 1245 sets minted and very popular with collectors since this is the first year of Barber coinage. Truly an extraordinary set. It would take a lot of careful searching to assemble a set of this quality since each coin is flawless. The three Barber coins (10¢, 25¢, 50¢) and the Liberty nickel have the most exquisite lilac toning imagineable. The Morgan dollar is as fine a proof Morgan as we can recall seeing and the Indian cent is totally free of spots or blemishes. Vastly superior to the set that sold last year at the Forrest sale. **$1495.00**

1904 PROOF SET

Six Coins: 1¢, 5¢, 10¢, 25¢, 50¢, $1 — Another marvelous proof set. More deeply toned than the 1892 set, but just as beautiful and flawless. The Barber half dollar is extraordinary! The lowest mintage of the three proof sets we offer here with only 650 sets minted. The Morgan dollar is particularly popular because it is the last collectible proof Morgan dollar.. . . . . **$1450.00**

INDIAN HEAD QUARTER EAGLES 1908-1929

This set is very popular with collectors since it is by far the least expensive set of U.S. gold coins to complete. The set ranges from extremely fine to uncirculated with the majority of coins grading AU. The rare 1911-D is one of the best condition coins in the set, grading a strong AU with full mint lustre. (Most dealers would sell it as Choice BU.) The late dates, 1925-D, 1926, 1927, 1928, and 1929 are all nice uncs. A very attractive set, at least the equal of the complete set that realized $1850 in the Gilhousen sale in February. (Prices have risen substantially since then!) **1495.00**

ALL MINT FIVE DOLLAR SET

The United States half eagle is the only coin that bears the unique distinction of being struck at each of the seven U.S. mints. This set is one of our most popular items. In recent months, it has become increasingly difficult to keep even a small supply of these in stock. Our buyers just cannot find enough undamaged, high grade coins to put into these sets. Fortunately, we just purchased two very large hoards of U.S. gold coins which included many of the coins we use in making up the All Mint Five Dollar Gold Set.

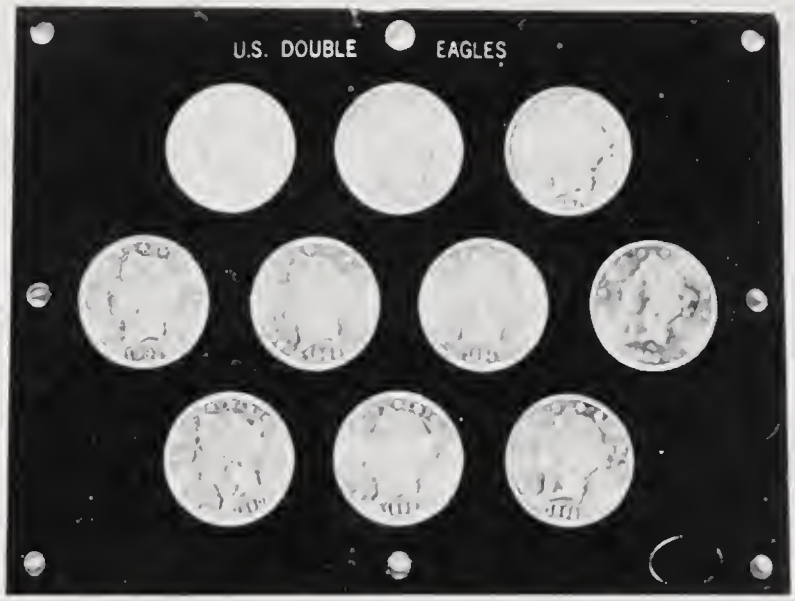
Imagine owning a set of coins representing each of the seven United States mints including Philadelphia, Denver, San Francisco, Carson City, New Orleans, Dahlonega and Charlotte. The Charlotte and Dahlonega issues are real conversation pieces in themselves. These two Southern mints produced only gold coins between 1838 and 1861. Dahlonega and Charlotte are also known for their rather low mintages, but the New Orleans half eagle is probably the rarest of them all, especially in the better grades.

W.W. Turner in his book *Gold Coins for Financial Survival* states, "This set is a must for every important gold coin collection." In addition, there is *no other way* to collect all seven mints in the same denomination.

The coins we have assembled are conservatively graded and are mounted in a custom plastic holder at no extra charge. Dates will be of our choice but will be carefully matched to enhance the beauty and value of each set. The supply is very limited!

Complete Mint Set of $5 Gold Pieces. 7 coins

VF-EF $1100.00
EF $1400.00
AU-UNC $1800.00

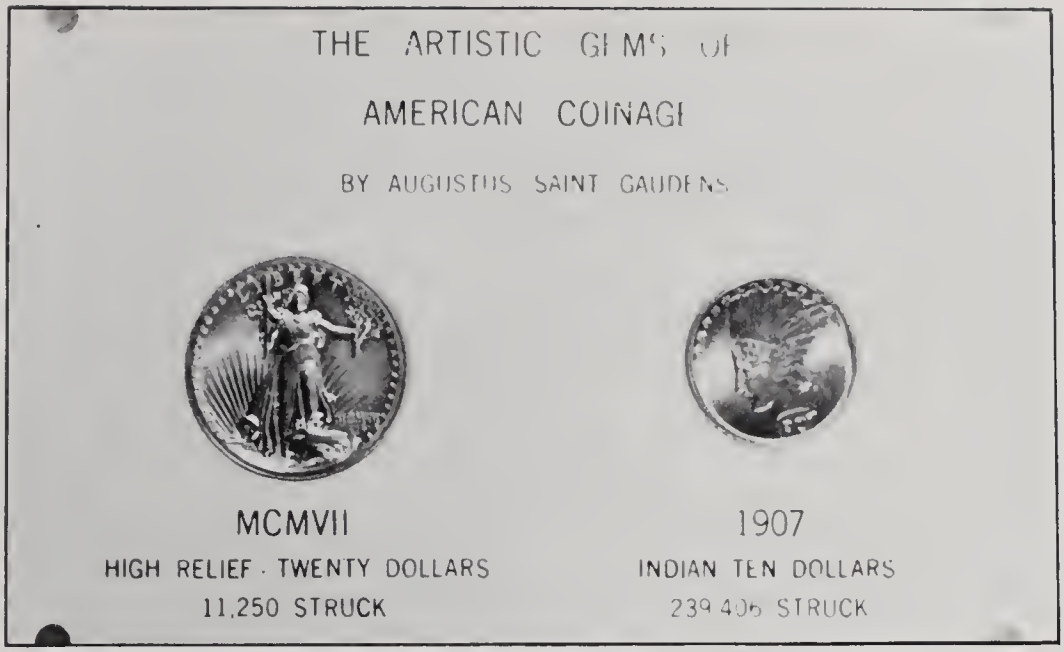


CARSON CITY DOUBLE EAGLE STARTER SET

Ten different dates including 1874-CC, 1875-CC, 1876-CC, 1882-CC, 1883-CC, 1884-CC, 1889-CC, 1890-CC, 1892-CC, and 1893-CC. This set was carefully assembled from coins in the Curacao hoard and they are remarkably evenly matched. Each coin grades a full AU and all have at least traces of original mint lustre. The 1892-CC and 1893-CC are the rarest coins of the group with the latter having a mintage of only 18,402. Purchased coin by coin, the normal retail for this set would be well over $4600! But by buying the entire set, which is beautifully mounted in a custom plastic holder, you can effect a considerable savings. **$4300.00**

TWO CENT PIECES 1864-1873

A very choice set containing all proofs except for the 1864 small motto which is choice uncirculated. (The small motto is virtually unobtainable in proof.) A very underrated series in proof with all dates having mintages less than 1000 pieces. The rarest date is the 1864 large motto with an estimated mintage of only 100 although the 1873, being a proof only date, is by far the highest priced. A nice evenly matched set with most of the coins having acquired a light iridescent toning over the years. All are uncleaned and relatively free from the carbon spots that are common to most proof copper coins. **$2395.00**



THE ARTISTIC GEMS OF AMERICAN COINAGE

This is surely a once-in-a-lifetime set and it has been a real pleasure just owning it. It contains only two coins, a wire edge high relief double eagle and a 1907 Indian Head ten. But what a pair of coins! Without reservation we can say that they are the finest we have ever handled, seen, or even heard about! There are not enough superlatives to adequately describe these two gems. Both are perfectly struck and have flawless surfaces. (The surfaces of both coins are very similar to the "Roman Finish" proofs of the era). Liberty's drapery on the high relief is absolutely full across her knee, something we have *never* seen before although we have handled many high reliefs over the years. The wire rim is totally free of the usual nicks.

The Indian ten is simply breathtaking and every feather on the eagle is sharp. Not a single mark can be found on the coin and even the rims are flawless.

No picture or description can do justice to this set and it is certainly not inexpensive at $9500. But if the finest is all you will settle for, you may order this set knowing full well that no amount of money could buy you finer specimens of America's most beautiful coinage **$9500.00**

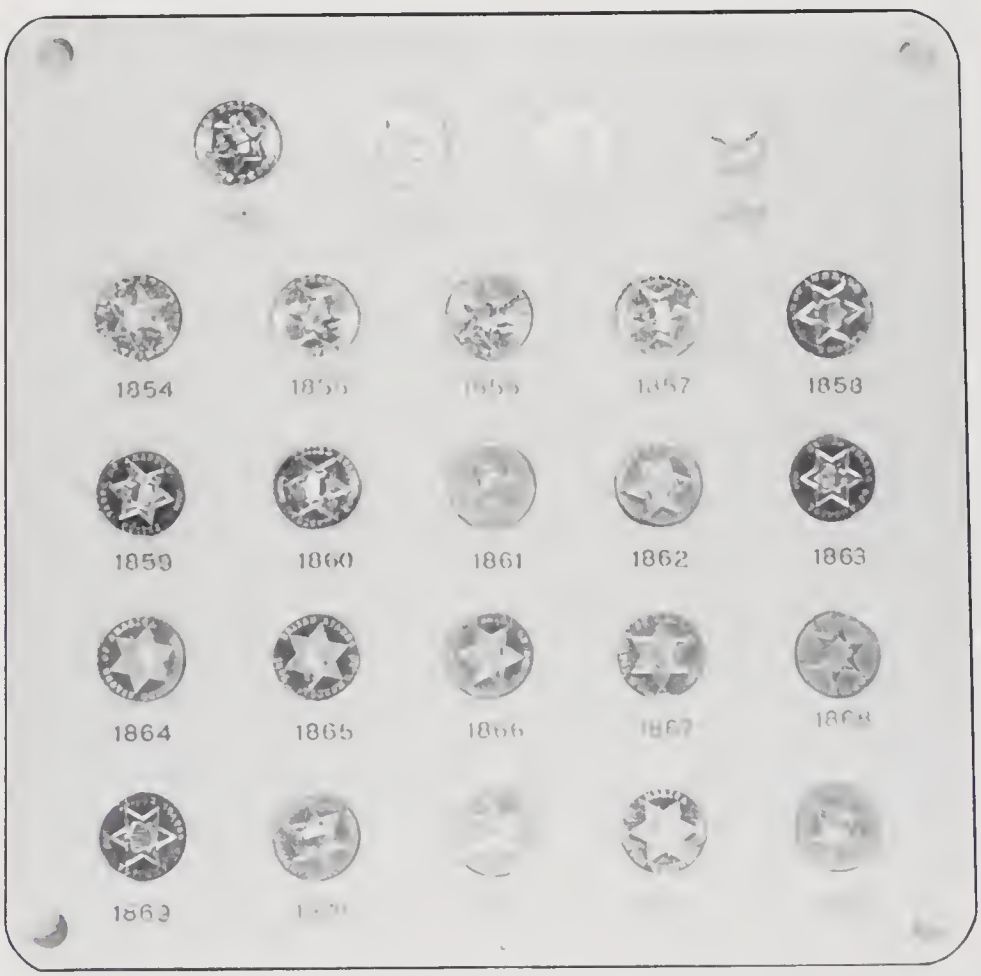
COMMEMORATIVE GOLD

United States commemorative coins, both gold and silver, have long been among the most popular of all U.S. coins. In the past year they have experienced a remarkable rise in price. Just last summer we sold several choice commemorative gold sets for $2900 each. (Those buyers could turn a handsome profit now if they would care to sell the sets back to us!)

This choice set contains 9 commemorative gold dollars and two quarter eagles, all choice brilliant uncirculated. The 1904 Lewis and Clark is prooflike while the 1905 is frosty. Both Grants are exceptional and the Pan-Pacific $2½ is also much better than average **$6000.00**

TWENTY CENT PIECES 1875-1878

The four Philadelphia mint pieces are all proofs while the 1875-S and the 1875-CC are choice uncirculated. The proofs have a few minor hairlines but are still above average. The rarest date, the 1877 with just 510 minted, is the choicest proof of the lot. The unc. 1875-CC is the best we have had in many months. It is much more sharply struck than normal with Liberty's head and the eagle's left wing and breast nearly full (very unusual on this normally softly struck date). The 1875-S is frosty and choice **$3900.00**



THREE CENT SILVER PIECES 1851-1873

The dates before 1861 are all choice uncs. and those from 1861 to 1873 are proofs. The type IIs are much above average and the rare 1855 is particularly excellent. The proofs are uniformly outstanding, almost completely devoid of the usual hairlines. It would be very difficult to assemble a set of this quality coin by coin. **$5000.00**

A 1909 DATE SET OF UNITED STATES COINS

If you are a connoisseur of high-quality coins, this set is for you . . . a complete year set of 1909 U.S. coins that includes bronze, nickel, silver and gold issues for all mints (only the 1909/8 double eagle is missing)! Included in this 1909 set are the three popular and rare San Francisco cents of that year and the *last* coins struck by the New Orleans mint before its closing. Most of the coins are original gem brilliant uncirculated, and it is worth noting that the six bronze cents in this set are so superb they could not be improved. Only the following gold coins are circulated and they are the best the previous owner could find in several years of searching:

1909-O	**$5 gold**	**Choice AU**
1909-S	**$5 gold**	**Extremely fine**
1909	**$10 gold**	**Choice AU**
1909	**$20 gold**	**Choice AU**
1909-D	**$20 gold**	**Choice AU (very scarce in this grade)**

This is truly a showpiece collection and was a source of considerable pride (and profit) to the original owner. These 29 beautiful coins are housed in a custom plastic holder. **$3995.00**

CHOICE GEM UNITED STATES PROOF SETS

The proof sets offered below are not ordinary proof sets. The earlier sets (pre-1955) were recently purchased as part of a large Southern Ohio hoard. These sets had been in a safe since they were issued and therefore are perfect, original, unspotted, uncleaned gem sets. Lower priced sets may be found elsewhere, but the quality will also be correspondingly lower. If you demand only the finest quality obtainable anywhere, please feel free to order from this list.

Gold Investment Portfolios

For quite some time Paramount has offered a gold investment plan to our many fine customers. Many of these people have bought one or more of these investment portfolios and have realized sizeable gains on their investments. With gold prices going up at a tremendous rate, we feel it is no longer possible to offer a wide selection of choice gold coins for $500. Therefore, we have dropped the $500 portfolio and added two new portfolios at $2,500 and $5,000. These new portfolios will allow us to send you more coins, scarcer dates and better conditions.

Each of our investment portfolios consists of carefully selected U.S. gold coins grading Extremely Fine or better. Experience has shown that the higher grades appreciate in value much more rapidly than lower grades. These lots will contain *no* damaged or otherwise undesirable pieces. Each group of coins would cost considerably *more* if the coins were bought individually.

In order to show the gains that have been made in the past, we have illustrated a typical portfolio that was purchased less than a year ago. In fact, if you are a regular Paramount customer, you will be able to check our *selling* prices of these coins from our **Special Coin List #1** from June/July, 1972. Today, this same lot would retail for over **$2100.00**, an increase of over **100%** in one year!

Since any investment contains some risk however, we cannot guarantee these portfolios will continue to perform as well in the future as they did in the past. Most experts in the field do agree though, that gold coins will continue to appreciate in value in the months and years ahead as the heavy demand continues for precious metal coins. Whether you buy our $1,000, $2,500 or $5,000 portfolio, we know that you will be pleased with the quality of the gold coins you will receive and you can be assured that each and every piece we sell is genuine. You should be aware that gold counterfeiting is a serious problem. Many unsuspecting investors are buying bogus pieces only to find that their "investments" are worthless when they try to sell them. With Paramount's gold experts working for you, you need not worry about receiving counterfeits! Each and every coin is fully guaranteed to be genuine.

Coins of Great Britain

In recent months foreign coins have received much attention from the numismatic world. The reasons are many, but perhaps the most obvious is the fact that foreign collecting is still in its infancy as many truly scarce and rare coins are still available at reasonable prices. In Rare Coin List #4, we offered, for the first time in several years an extensive listing of British coins. The response for these coins was heavy, indicating the increased interest in this area.

In 1971, Great Britain changed its monetary system from the pound sterling to the decimal system. Consequently, none of these denominations (representing over one thousand years of British coinage) will ever be issued again! The nostalgia associated with these pieces makes them as interesting as they are significant. For instance: during the reign of Henry VI (1422-1471), in the midst of severe inflation, seven half-pennies or 3½ pence would buy a loaf of bread; in contrast, during the rule of Elizabeth I not quite one hundred years later (1558-1603), five pence could buy a round of ale for the house, winning a man a hundred new friends! During that same period, one penny would buy a day's feast of gingerbread, or nine sparrows for your lady's fancy. Twenty years later, during the rule of James I, a shilling would pay one admission to see Shakespeare's Henry VIII, or buy a commoner a fine pair of breeches. All of these coins (and more) are represented in this catalogue.

Included in this listing are many exceptional coins representing an investment opportunity that should not be overlooked. Many of the coins are listed at prices that are only a fraction of their potential value since serious British collecting is still in its infancy. As a result, this is an excellent opportunity to get in on the ground floor and acquire some tremendously rare coins before prices go up. These British pieces have what every collector is looking for: quality and value at unbelievably inexpensive prices!

Many of the coins will be very rare and one-of-a-kind so we suggest that you give alternate choices wherever possible.

1954 AU. Unique! Although 2000 pieces were struck, this is the only known specimen. It was retrieved from circulation which accounts for its slight amount of wear and adds to its charisma. Ex. C.W. Peck collection. This famous rarity has been the subject of many magazine and newspaper articles . . . and even a parliamentary debate! It is difficult to price a numismatic treasure such as the 1954 British penny. No amount of money could buy another one. However, with many more common (and certainly no more famous!) coins selling in the 50 to 100 thousand dollar range, we feel that $40,000 is a very reasonable sum . . $40,000.00

TRIAL PIECE In 1920 the British government reduced the shilling composition from .925 fine silver to .500 fine, alloyed with a .500 fine nickel mix. In 1947 they completely debased their shillings to nickel. However in 1923 and 1924 they did run trial strikes in nickel and this was the government's first consideration towards that complete debasement that followed some 24 years later. FLORINS

1848 Actually a pattern, the florin of 1848 is Britain's first attempt at decimalization. The reverse reads one tenth of a pound. Since the issue of decimalization remained so unpopular, it did not come about until 1970. Called the godless florin due to its lack of 'dei gratia' in the obverse legend, it was issued in proof. Plain edge, Proof, faint hairlines, $199.00; This one particular coin (photoed) is in a beautiful state of preservation, with full wire rims and a beautiful iridescent toning. A magnificent coin. Very pleasing Proof 269.00

AUSTRALIA

1937 Penny. George VI on the obverse and kangaroo on the reverse. Gem Proof! One of the four pieces struck as certified by the Australian Mint. Like the 1808 and 1954 British Pennies offered in this list, the 1937 Australian penny is one of the world's most famous numismatic treasures. We know of no other specimen for sale now (or likely to be) at any price. With the $100,000 figure tossed around for many coins that are much less rare, we feel that our asking price, established several years ago, is most reasonable 39,750.00

CANADA

1911 Five Cents. Matte Proof. A part of the extremely Rare 1911 Matte Proof Set. The famous "Godless" obverse and the impeccable quality of this piece, makes it among the most prized of all Canadian coins. Matte Proof 250.00

1911 10 cents, Matte Proof 750.00

1911 25 cents, Matte Proof 975.00

1925 One Cent. Matte Proof. This is the lowest mintage Canadian small cent. It is a very rare coin in high grade and almost unknown in the beautiful condition we offer here. We cannot recall seeing another such specimen offered for sale for many years 875.00

Maundy Sets of England

Maundy coins have been popular among collectors for many years, but it was only recently that collectors began to realize the true scarcity of these sets in relation to other foreign coins. The total number of sets struck for any one year is extremely small when compared to proof issues of coins from other countries. In fact, 80% of the Maundy issues have mintage figures which are considerably lower than the 1936 U.S. Proof set . . . yet they are available at a fraction of the cost!

The Maundy sets derive their name from the Maundy Ceremony, a service of the Church of England held on the Thursday before Easter, the day commonly called Holy Thursday. These services are part of the Easter observance and are based on the events of the Last Supper when Jesus Christ washed the feet of his disciples and delivered his commandment or "mandatum", from which comes the word "Maundy". Early records indicate that some form of this ceremony has been conducted in England since the fifth century. At that time, selected aged and poor citizens received a meal and had their feet washed. The Sovereign did not become active in the ceremony until centuries later, at which time the ceremony became known as the Royal Maundy. Gifts of clothing or cloth, food and money were added to the ceremony but today, the alms consist only of money . . . the Maundy coins . . . which represent the original gift.

For the past sixty years, the mintage of these sets has remained between one and two thousands per year, with the exception of the 1937 coronation set of King George. In addition, interest in British proof coinage as a whole has been aroused by the recent announcement that England has authorized a British Millenium Proof Set to commemorate more than 1200 years of English sterling system. As a result, the English Maundy Sets are experiencing an upsurge in popularity that is currently shared by other varieties of obsolete British proof sets.

Each of these historic sets contains four silver pieces: one penny, two pence, three pence and four pence. Dated from 1800 to 1965, these high quality coins span the reigns of six monarchs. Many of the sets are one of a kind in our stock, so alternate choices are appreciated whenever possible.

1 Sovereign, 1830, Br. Proof. This coin is actually a pattern since the coins of William IV were not officially issued until 1831. The design of this 1830 however is identical to the regularly adopted coinage. British pattern gold coins are very popular and very rare and we cannot recall seeing another specimen of this particular pattern offered in years.....1295.00

ICELAND

500 Kroner, 1961, BU. This is one of the few foreign gold coins of the 1960s that is legal to own. It is Iceland's only gold coin and was issued in honor of Jon Sigurdsson, who is shown on the obverse. Only 10,000 pieces

were minted and this is certainly one of the most popular modern gold coins, as well as one of the scarcest 325.00

2 Dollar, 1885, BU. The short Newfoundland gold series is a very popular one and the 1885 is one of the rarest dates in the series with only 10,000 minted. Most Newfoundland $2 gold coins are very worn and we have also seen many looped and damaged ones. Few can exist as nice as this beautiful 1885 . . . . . 219.00
2 Dollar, 1888. AU, choice 175.00

NORWAY

10 Kroner, 1910, BU. The last gold coin of Norway. On the obverse is King Haakon VII. The reverse depicts St. Olaf standing. Much more rare than the 20 Kroner of the same type 195.00
